

DEXTER'S LAB

EVENT OBJECTIVE:

The objective of the event 'Dexter's Lab' is to provide a platform for the students who are passionate about chemistry and its practical applications.

The event will test the basic knowledge of chemistry along with practical skills of participants. It may involve general questions about recent events involving chemistry and its use in world of the technology and Human Welfare. Practical skills and knowledge of Acids and Bases is your saviour in this competitive lab-event.

EVENT STRUCTURE:

Round 1: It will consist of objective-type questions related to basic chemistry and its application.

Round 2: This round will test your practical skills. In the practical round, participants will be expected to perform certain simple experiments in given time limit. Experiments will be explained before the concerned rounds. Accuracy and precision in results will be given priority.

Round 3: This will be a viva round, where your knowledge will be tested by the experts in the field.

RULES:

1. Participants from same or different institutions may be a part of the same team. However, no participant must be a part of multiple teams for the same event.
2. Participants must carry a valid college ID and the receipt of registration. Without the mentioned documents, teams will not be allowed to participate in the event.
3. Decision made by the judges and event heads will be final and binding for all the participant teams.
4. Rules may be changed without prior intimation. Participants are requested to check the MindSpark'16 website (www.mind-spark.org) regularly for updates.

TEAM AND FEE STRUCTURE:

Team Size	:	Maximum 2 participants per team.
Registration fee	:	₹ 50/- per team.

FAQs:

Q. How would the practical round be conducted?

A. The practical round will include experiments similar to those conducted in Std. 12th, F.E./F.Y. and also some experiments conducted in industries.

Q. What type of interaction with the judge will be involved?

A. Interaction with the judge would be a viva in which the judge would be asking the participants some general questions on chemistry and certain questions on the practical that the participants will be performing.

Q. What if I am not able to get any partner/ my partner is not present when the event starts?

A. In that case, we would try to team you up with another single participant or you can also participate alone in the event.

Q. Can I participate in other events of MindSpark?

A. You are free to participate in as many events as you want. However, you have to manage your own schedule.
