

# TUX

## **EVENT OBJECTIVE:**

Since ancient times, the human race is inventing and discovering new things. Sharing one's knowledge is what has led to the development of a civilized society. But nowadays, most of the knowledge is being patented. Knowledge is no more "freely accessible". Can we revive the freedom of knowledge of the past to create a better future?

Taking steps in the direction of "free" knowledge, are various Linux User Groups (LUGs) and 'free and open source' (FOSS) groups.

"TUX" is one such effort taken by COEP, to spread the philosophy and knowledge of Linux operating system and other free and open source software.

**Aim of the workshop is to make people familiar with Linux and getting them started with contributing to free and open source software.**

## **EVENT STRUCTURE:**

Each day, there will be two sessions

### **Day 1:**

Session 1: Hands on session of OwnCloud by Mr. Raju Vindane.

Session 2: "Introduction to Artificial Intelligence and Parsing" by Mr. Shashank Gandham.

### **Day 2:**

Session 1: Talk on "Open Source communities and how you can contribute".

Session 2: Hands on lecture on Shell programming and Scripting by Mr. Abhijeet A. M.

### **Day 3:**

Session 1: "Q&A in Open Source Software" and Firefox development – by Mr. Prathamesh Chavan.

Session 2: Hands-on session on Git by Mr. Shadab Khan.

## **RULES:**

1. Participants must carry their registration receipt and a valid ID card at all times during the workshop.
2. Participants must be punctual for all reporting times. Sessions may begin without participants if they are late.
3. If any damage occurs to the machines, participants may be asked to refund the cost of repairs.

4. Organizers are not responsible for any harm caused to participants due to their own negligence.
5. Rules may be changed without prior intimation. Participants are requested to check the official MindSpark'16 website ([www.mind-spark.org](http://www.mind-spark.org)) regularly for updates.

**TEAM AND FEE STRUCTURE:**

Team size : One per team- Individual Event (Workshop)  
Registration fee : Free of cost

**FAQs:**

Q. I'm participating in another event at MindSpark. Can I still register for this workshop?

A. You are free to enroll at any event at MindSpark provided you are able to manage your own schedule.

Q. What are prerequisites to participate in the workshop?

A. The workshop does not have any "technical" prerequisite. If you are interested, you should attend the workshop. However, even if you do not have sufficient information about the workshop, we assure you that the workshop will create curiosity and interest about the topic.

Q. Is it necessary to bring Laptops for the TUX workshop?

A. It is NOT COMPULSORY, but highly recommended to bring Laptops, as participants can get a hands-on approach of the theory on their own systems.

Q. Is it compulsory to attend all the sessions?

A. NO. It is NOT COMPULSORY, BUT RECOMMENDED as students will certainly benefit from it.
